

Dear Colleagues,

There is still time to volunteer as a reviewer for the SAAFoST Congress 2023 which will be held in person at the CTICC from 28 - 30 August 2023.

The deadline for submissions was extended to 17 February 2023. The response to the call for abstracts has been very positive. Kindly confirm your interest by 17 February 2023.

The theme for the Congress is "Future Foods: Smarter and More Sustainable Solutions".

The success of any Congress is dependent on the quality of the Scientific Programme, which in turn is reliant on the services of experts in their field to review the submitted abstracts. The Congress subscribes to a double-blind-peer review process which ensures that the programme content is of the highest possible standard.

To this end, we would like to extend an invitation to members with a minimum qualification of a Master of Science degree to volunteer as a reviewer for the SAAFoST Congress 2023. To assist you with making a decision, please visit the call for abstracts on the website for detailed information on the themes and sub-themes: [Call For Abstracts](#)

Please feel free to extend this invitation to colleagues that you may think would be interested.

Kindly indicate your willingness by completing a Google Form at <https://forms.gle/qVsM5tE1TLAUJrfa6>

Thank you and we appreciate your consideration. If you have any questions, please contact Kerry Firmani - Kerryf@turnersconferences.co.za

Kind regards

Prof Gunnar Sigge

SAAFoST Congress 2023: Programme Committee Chairperson
